Prof. Petar Jandrić Joins GCAS Faculty and Is Appointed to Director of Research

It is an honor to have Prof. Petar Jandrić (<https://globalcenterforadvancedstudies.org/member/petar-jandric/>) join GCAS' faculty as we are organizing and creating a school to reclaim public research, learning and activism.

Petar Jandrić (<http://petarjandric.com/>) (PhD) is tenured Senior Lecturer in e-Learning at the Polytechnic of Zagreb and visiting Associate Professor at the University of Zagreb, Faculty of Humanities and Social Science.

He will be taking up the Director post at the Institute for Research and Knowledge Advancement and serving as a professor in the Critical Media & Cultural Studies Institute as well as the Institute for Critical Pedagogy.

Prof. Jandrić is an innovator and committed to the creation of publicly shared knowledge and ideas against the neoliberal commodification of education making him a great fit for the GCAS mission and vision. He is also a leading critical pedagogical theorists and activists. Jandrić believes the GCAS model needs to be part of a movement that proclaims the internet for the "commons". He will be implementing strategies for GCAS and spearheading our new journal.

His research interests are focused to the intersections between critical pedagogy and information and communication technologies. Research methodologies of his choice are inter-, trans- and anti-disciplinarity. Petar's previous academic affiliations include Croatian Academic and Research Network, National e-Science Centre at the University of Edinburgh, Glasgow School of Art and Cass School of Education at the University of East London. He writes, edits and reviews books, articles, course modules and study guides, serves in editorial boards of scholarly journals and conferences, participates in diverse projects in Croatia and in the United Kingdom, regularly publishes popular science and talks in front of diverse audiences. His major current projects are focused to collaborative research and editing.

He has published many books and articles including, ***Critical Learning in Digital Networks*** (<http://www.amazon.com/Critical-Learning-Networks-Research-Networked/dp/3319137514>) (edited with Damir Boras ([http://www.amazon.com/s/ref=dp\\_byline\\_sr\\_book\\_2?ie=UTF8&field-author=Damir+Boras&search-alias=books&text=Damir+Boras&sort=relevancerank](http://www.amazon.com/s/ref=dp_byline_sr_book_2?ie=UTF8&field-author=Damir+Boras&search-alias=books&text=Damir+Boras&sort=relevancerank))).
